GIVING HOPE

We've been pioneering approaches to recovery and championing social inclusion for 55 years and we're now one of the biggest voluntary sector providers of mental health support in England.

We believe that recovery is a journey, and is different for each person. While there's no single definition of recovery, the achievement of the best possible quality of life for each individual lies at the heart of this journey.

WE **RESPECT** EVERYONE'S INDIVIDUALITY

We believe that each person is unique and should have the opportunity to take control of their life and to develop new meanings and purposes.

We concentrate on the person and their individual needs, choices and aspirations, rather than on diagnostic categories or labels.

OUR **INCLUSIVE** APPROACH

We're increasingly helping individuals with more complex needs and chaotic lives, where their mental health problems may be coupled with substance misuse, social isolation, homelessness, abusive relationships, poor job prospects or lack of basic education.

OUR **ENABLING** SERVICES

Our proactive and flexible services coupled with our positive and enabling culture means we're able to adapt the kind of support we can provide to match an individual's specific needs.

We provide:

- Residential recovery schemes
- Supported living schemes
- Wellbeing services
- Employment services
