

## About RF

---

**Richmond Fellowship** is one of the biggest voluntary sector providers of mental health support in England. We offer a wide range of housing, care, employment and community support across **more than 120 services**.

Richmond Fellowship is now part of **Recovery Focus**, an expert group of charities with the shared aim to inspire individual recovery nationwide. Between us we've more than 200 years' experience of developing and running personalised services that work with people with mental health, substance misuse and other complex needs to achieve their ambitions.

**RICHMOND  
FELLOWSHIP**   
MAKING RECOVERY REALITY

# How we can help

---

**RF Haringey** provides a Floating Support Service in the West of the borough. It offers housing-related support to local people with mental health problems.

We provide flexible support packages tailored to meet individual needs ranging from brief solution focused interventions to 18 months intensive support.

We enable individuals to live independently with a specifically designed support package focusing on recovery and moving forward.

The support package will primarily focus on addressing any housing, debt and benefit issues and in addition to this any other of the following types of support:

- Accessing education, training, voluntary or paid work
- Support in maintaining health, safety and well being
- Support in developing support networks, faith, cultural or leisure activities
- Support to develop daily living skills including budgeting
- Accessing other information, advice and support services.

# Our approach

---

**At the heart of everything we do lies:**

**Hope:** the belief that recovery is possible for every individual

**Respect:** valuing differences and all contributions

**Enabling:** giving people encouragement and support to achieve their goals

**Inclusion:** the belief that everyone has a right to participate fully in society

# Who we can help

---

This service is for Haringey residents aged 18 and over who are in need of housing related support to maintain accommodation.

Applicants must have a mental health diagnosis (either under a standard or enhanced CPA or coping with complex needs) and be in need of housing related support. They must be willing to work with us towards a positive outcome for their future.

The service will accept referrals directly from Barnet, Enfield and Haringey Mental Health Trust services and from Haringey Council's Vulnerable Adults Team.

For further information or to request an application form please call:

**0208 881 7452** or email
